Address

Managua, Nicaragua
Pali P del H, 3c. al sur,
½ cuadra arriba

Profile

Hi, I'm Gustavo Mejía, I'm dedicated to web development for about **3 years**, I love working on the frontend because I like the **UX/UI design**, so I do clean work in code and presentation for end users. It is worth mentioning that lately I have been working in backend since **my goal** is to be a **full stack developer**.

Work Experience

2022 - act
DIGITECH

Web Developer

My first position at DIGITECH was in technical support for all the companies associated with the company, then they gave me the opportunity to take a step further and I started working as a web developer and interfaces designer for apps.

2021 - 2022
IMGU

WordPress Developer

My job at IMGU was simply to create WordPress websites on a daily basis for different clients from different countries, I managed to acquire knowledge in WordPress along with the different plugins it offers during my stay.

My Studies

2023
NERDIFY

Bootcamp

It is my most current study, where I spend about 4 months going daily to learn many technologies for web development. So, I learned frontend and backend technologies.

2017 - 2021
IES - UNI

Systems Engineering Career

2006 - 2013
ANS

English course from infant to adolescent
